

INTRODUCTION

The idea behind this guide is to simplify the terminology and jargon of the hardware industry and assist our customers in selecting the correct products to ensure they function well and look good. All information within the guide relates to our 2005 brochure.

Selection of ironmongery is often left to the very last minute, as it is generally not required until the end of the project. All our products are hand crafted and are built to individual customer requirement so please plan ahead and order your hardware as early as possible. Some products have a lead-time of four to six weeks so please call us in plenty of time so that we can give you a delivery estimate.

We have a number of dealers in various locations who would be happy to help you with the specification of your hardware – please contact us for more information. Alternatively, if you do not have a dealer in your area, we will happily help you with the specification.

Or alternatively please contact the sales team directly on +44 (0)1271 325325.

If you require further information or assistance please do not hesitate to contact us on:

Telephone : +44 (0)1271 325325

Fax : +44 (0)1271 328248
