Living Finishes

Some of Turnstyle's brass finishes are described as 'Living Finishes'. This means they will develop their own individual patina over time as they react with their environment. Some colour and texture variation should be expected as these finishes are created by hand.

Once installed a number of factors such as handling, age and environment will lead to gradual wear and oxidation, resulting in each piece developing a unique character and elegance. This is a natural process and is a feature not a fault of the base material or finishing technique.

Brass Finishes

Bright Chrome (BC)

Nickel base with Chrome top
coat. Our most durable finish,
suitable for exterior.

Satin Nickel (SN)

A beautiful subtle finish, flat
satin with no brushwork
marking.

Polished Nickel (PN)

Heavily applied nickel,
unlacquered to bring out the
best of the soft nickel tones.

Polished Brass (PU)

Polished brass, pure and simple,
expertly hand polished with
nothing added to allow a natural
aging process. Living Finish.
Suitable for exterior.

Matt Black Chrome (CB)

Nickel base with a true matt
black Chrome top coat. Our
most durable finish, suitable for
exterior.

Fine Antique Brass (FA)

Hand polished and patinated
to age the brass, expertly
distressed to bring out
highlights and hand waxed for a
durable finish. Living Finish.

Vintage Nickel (VN)

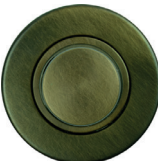

Patinated nickel, followed
by hand distressing and wax
polishing.
Living Finish.

Vintage Patina (VP)

Hand polished brass, patinated
to a dark rich finish and lightly
distressed for contrast. Finished
with hand applied beeswax.
Living Finish. Suitable for
exterior.

Hammered Brass Finishes

Burnished Brass (BH)

Developed for the hammered
range, worked by hand to
distress, patinated and finished
with beeswax. Suitable for
exterior.

Burnished Nickel (NH)

Labour intensive, developed
for the hammered range,
polished nickel, worked by
hand to distress, and finished
with wax.
