

*Press Release Release  
August 2016*

### *Pure Brass*

By popular demand, Turnstyle Designs has reintroduced Polished Brass as one of its metal finishes within the Living Finishes range. A rich golden finish when freshly polished, the brass will naturally patinate to a warm duller brown finish, unless of course you keep it cleaned and polish to retain its original finish.

Turnstyle only uses solid brass for all of its metal components, normally plated or patinated, the Polished Brass look is very on trend, with the majority of Pins on Pinterest featuring this finish in Luxury interiors.

Polished Brass goes particular well with the darker browns and blacks in leather and Amalfine finishes in our range. With a large choice of designs and materials (48 finish options for a single door lever design), our handles can match any interior.
