

Press Release

Warming Tan

May 2015; Leather products have always been a core aspect of Turnstyle Designs hardware collection. Combining handmade, British manufacturing with cutting edge design the new Tan Leather bridges the gap between the more natural chestnut and darker chocolate leather, all available to view at www.turnstyledesigns.com.

All but a few of their leather products are hand stitched by our highly skilled and dedicated leatherworkers based in their factory in Devon. The Tan leather conjures up images of luxury travel luggage or coveted handbags and introduces a warm finishing touch to the more modern interior.
