

C U S T O M

Modify or Tailor, it's your choice. We can help you to product the best fitting design for your interior, that will be unique to you and you only.

We offer modification and customisation options for clients by using existing stock components. A cost effective way to enable a client to have a unique, bespoke design by using some of Turnstyle's stocked components and modifying material, grips or finish and thereby benefiting from both price and delivery times.

Modify

There are several ways of achieving this... here are the main areas:

Custom Leather

Clients can free issue their leather to apply to an existing design, or modify our stitch colour or style.

Custom Grip

Create your own grip for any of our hardware, and choose your own materials and lengths.

Custom Metal

Alongside our standard metals we have a range of custom finish options including Rose Gold, Vintage Copper and Silver Plate.

Tailored

If you are not able to find something to suit your project in either of our catalogue ranges or via the Modify process we will be happy to discuss developing and manufacturing your vision from start to finish.

We have the capabilities and know-how to manufacture most types of door hardware, however complex, and have been the manufacturer of choice for some of the most prestigious and demanding clients in the world, including a number of Superyacht builders.

We understand the demands put on door and cabinet hardware and will ensure that your design not only looks a million dollars but it is also built to last and function smoothly.

In the first instance please contact our custom design department at our head office and ask for Alex Foster on + 44 (0)1271 325 325 or email alex@turnstyledesigns.com. Alex will discuss the project, designs and suitability (to develop time scales and budget indications) from prototyping to full delivery.
