

MATT BLACK CHROME

Turnstyle Designs Matt Black Chrome is an incredibly durable and sustainable finish, perfect for both interior and exterior applications.

Along with the other 11 Turnstyle Brass Finishes, it is plated and hand-finished. This particular finish goes through a four-step process, developed by a highly skilled team, to produce an incredibly solid and deep matt black. Matt Black Chrome products are made to order and now available on all Turnstyle brass products and parts.

Matt Black is a stylish and daring finish, and because there's no shortage of drama within industrial modern design, Matt Black hardware is a natural fit to tie in a space together. These Turnstyle handles, pair beautifully with modern lighting styles and architectural details.
