

LIVING FINISH STATEMENT

Some of our brass finishes are described as 'Living Finishes'. This means they will develop their own individual patina over time as they react with their environment. Some colour and texture variation should be expected as these finishes are created by hand.

Once installed a number of factors such as handling, age and environment will lead to gradual wear and oxidation, resulting in each piece developing a unique character and elegance. This is a natural process and is a feature not a fault of the base material or finishing technique.

Living Finishes should be cleaned with a soft, lint free cloth. Polished Brass (PU) - If preferred can be cleaned with metal polish to maintain the original bright finish.
