

EDGE WING SCROLL CABINET HANDLES

Elegant Cabinet handles, Individually hand stitched, using the finest Italian leather.

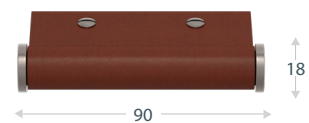

The Edge Wing Scroll is a simple, classic design, hand stitched in our Devon based factory and uses the very best full grained, vegetable tanned leather.

The Turnstyle leather products have always been a core aspect of the hardware designs. The leather is reminiscent of luxury travel luggage or coveted handbags, whilst introducing a warm finishing touch alongside the modern designs. Leather, much like all natural materials, will change with age and the more you use it the better and richer it will look.

The design comes in 5 different sizes, 9 metal finishes and 6 leather options. Customers can combine the finishes to suit any of their individual projects and interiors. As well as standard lengths we also offer a bespoke sizing as part of our Made to Measure service, where you can request custom lengths up to 2 meters.
