THE STOPPLE

With a multitude of mid-century modern objects making a comeback within the interior market, the Stopples were largely inspired by this trend movement. A movement that largely came from post war America, moving across into Europe/Scandinavia, objects such as lamps and vases particularly caught Christina's attention for their unusual shape combinations and bright appeal. The rounded, brass bowl shaped head and slim stemmed body of the Stopples encapsulated this look well. In terms of function, with its generous proportions it allows for an easy grip whilst staying true to its original concept.

Made from solid machined brass capping a simple Amalfine™ stem, the Stopples are available in over 45 combinations of finishes from a striking combination of Black Bronze and Polished Nickel, to more subtle options such as Vintage Patina mixed with Silver Bronze.

Designed by Christina Roberts

Delivering luxury door hardware for high-end residential, commercial and yacht projects for 30 years, Turnstyle Designs was founded by Steve Roberts in 1992. Steve and his wife Christina work collaboratively to design some of the world's most innovative decorative hardware, using a broad palette of materials and finishes including, brass, leather and Amalfine™.

From hand stitched leather to individually hammered door hardware, attention to detail is found in every product made. Turnstyle is proudly British made and manufactured in the beautiful Devon countryside. With multiple product combinations and flexibility to allow customisation, there is something for everyone.
