BULLET

Designed by Christina Roberts, the Bullet is a bold statement, it is a design that is deliberately oversized, heavily textured and one that demands to be held.

Perfectly shaped, and hand cast in Turnstyle's trademark Amalfine™ composite, it is wonderfully tactile and ergonomic. Cast from a piece of rough hewn timber, the casting picks up every detail of wood grain, particularly prominent in the Alupewt.

Launched at this Springs ICFF in New York, and at 100% Design this September, Turnstyle is confident the Bullet is sure to make a hit! Available in 40 combinations of Amalfine and metal finishes and on two body sections - Goose Neck or Combination, there is plenty of choice to find the perfect option.

Delivering luxury door hardware for high-end residential, commercial and yacht projects for 30 years, Turnstyle Designs was founded by Steve Roberts in 1992. Steve and his wife Christina work collaboratively to design some of the world's most innovative decorative hardware, using a broad palette of materials and finishes including, brass, leather and Amalfine™.

From hand stitched leather to individually hammered door hardware, attention to detail is found in every product made. Turnstyle is proudly British made and manufactured in the beautiful Devon countryside. With multiple product combinations and flexibility to allow customisation, there is something for everyone.
