PRESS RELEASE
STEPPED CABINET T BARS
LATEST ADDITION TO OUR STEPPED RANGE

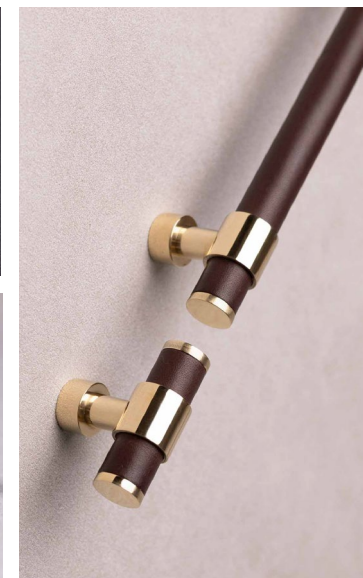

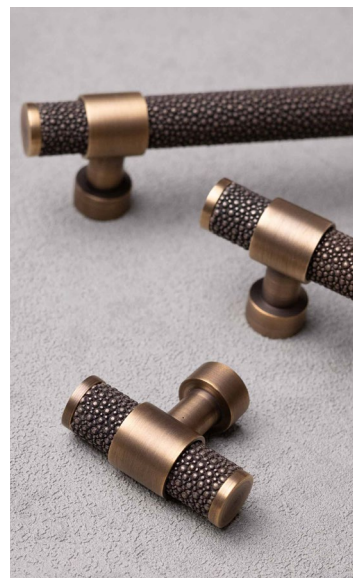

STEPPED CABINET T BAR

Introducing a cabinet T bar, this exciting new addition to our existing Stepped range completes the collection.

Derived from the Stepped Labyrinth design, launched in 2019 in collaboration with Winch Design, the Stepped range was born. The door lever is a scaled down version of the stepped brass work from this collaboration, creating a contemporary and transitional product that will suit any interior.

This latest cabinet t bar has a specially engineered pin which prevents any rotation, ensuring the T Bars will always sit straight.

Available as a lever, door pull and door T bar as well as cabinet pull, the new cabinet T bar means that you can complete the look in any project. Combined with some of Turnstyle's best-selling grip designs, this latest addition will make for a beautiful piece of cabinetry hardware.

MADE IN BRITAIN

Delivering luxury door and furniture hardware for high-end residential, commercial and yacht projects for over 30 years, Turnstyle Designs was founded by Steve Roberts in 1992. Steve and his wife Christina work collaboratively to design some of the world's most innovative decorative hardware, using a broad palette of materials and finishes including, brass, leather and Amalfine™.

A truly family run business, Turnstyle is now managed by their eldest son Oscar. From hand stitched leather to individually hammered door hardware, attention to detail is found in every product made. Turnstyle is proudly British made and manufactured in the beautiful North Devon countryside. With multiple product combinations and flexibility to allow customisation, there is something for everyone.
